

From 19th till 22nd May the team of Infocenter Ltd took part in the Fourth international meeting on [TURCVET project](#), held in Ramnicu Valcea, Romania. Within the two working days there were five workshops held with the participation of project partners and representatives of various stakeholders. 2 trainees of Infocenter - Veronika Krasteva and Zlatina Pashalanova took active participation in the preparation and the work. We discussed various aspects of vocational education and training, the importance and the role of mobility and increasing demand for the introduction of the European Credit system ECVET, to facilitate and promote lifelong learning and recognition of qualifications.

The deputy mayor kindly hosted us in the City Hall of Ramnicu Valcea. He told us about the history of the city, the educational system, the cooperation between the municipality and educational institutions and joint projects in progress.

After working on the project activities planned, we enjoyed the charm of the city, the local cuisine and the hospitality of the hosts.
